

RADIATION AWARENESS

RADIATION PROFESSIONALS 1/2 - DAY COURSE

COURSE OUTLINE

SUBJECT	STUDY UNITS	COURSE STRUCTURE
Basic Fundamentals	Structure of Matter Radioactivity and Radiation Measuring and Units Biological Effects Natural and Man-made radiation	This highly regarded course combines core principles to support development of knowledge and expertise in radiation safety. This course is focused on giving you compelling take-away tools in a practical, interactive way so that you can apply them the next day.
Protection Principles	Radiation Protection Principles Dose Limits Hands & Skin Controlling the hazards Monitoring the hazards Personal Protective Equipment (PPE)	This course is a refreshing and fun approach to learning about radiation and is an entry level to every radiation course on offer.
Monitoring & Detection	Equipment Identification Choosing an instrument	This course is appropriate for Field Personnel involved in the Oil & Gas / Uranium mining industry where geological surveys, drilling, mineral bagging and transport operations are undertaken. The nature of the hazards and their control are outlined, in particular how protection can best be afforded using appropriate working techniques, equipment, radiation monitoring, administrative arrangements and legal obligations.
Regulatory Considerations	Western Australia legislation Emergency Procedures	CERTIFICATION Upon completion of this course trainees will be issued with a Participation certificate to prove their attendance for future radiation training. This is a prerequisite for every other course we facilitate.

RADIATION AWARENESS

RADIATION PROFESSIONALS 1/2—DAY COURSE

COURSE OUTLINE

WHY TRAIN WITH US?

Radiation Professionals has a long-standing track record of delivering very successful customised learning solutions achieving real and measurable value for our clients through our senior training consultants.

We provide onsite training options which can be an ideal solution giving you the opportunity to customise our course content to your specific training needs, as well as attracting significant savings compared to public course costs.

We are an approved radiation safety training provider recognised by the WA Radiological Council and the relevant regulatory authority in each State and Territory in Australia.
