COURSE STRUCTURE

This online radiation awareness course combines core principles to support development of knowledge and expertise in radiation safety. This course is suited for personnel that need to be aware of radiation in their workplace.

This course is a refreshing and fun approach to learning about radiation and is an entry level to our higher level courses.

This course has been designed for personnel that struggle to attend in house training; this is a flexible option to gain your knowledge and awareness around radiation in the workplace.

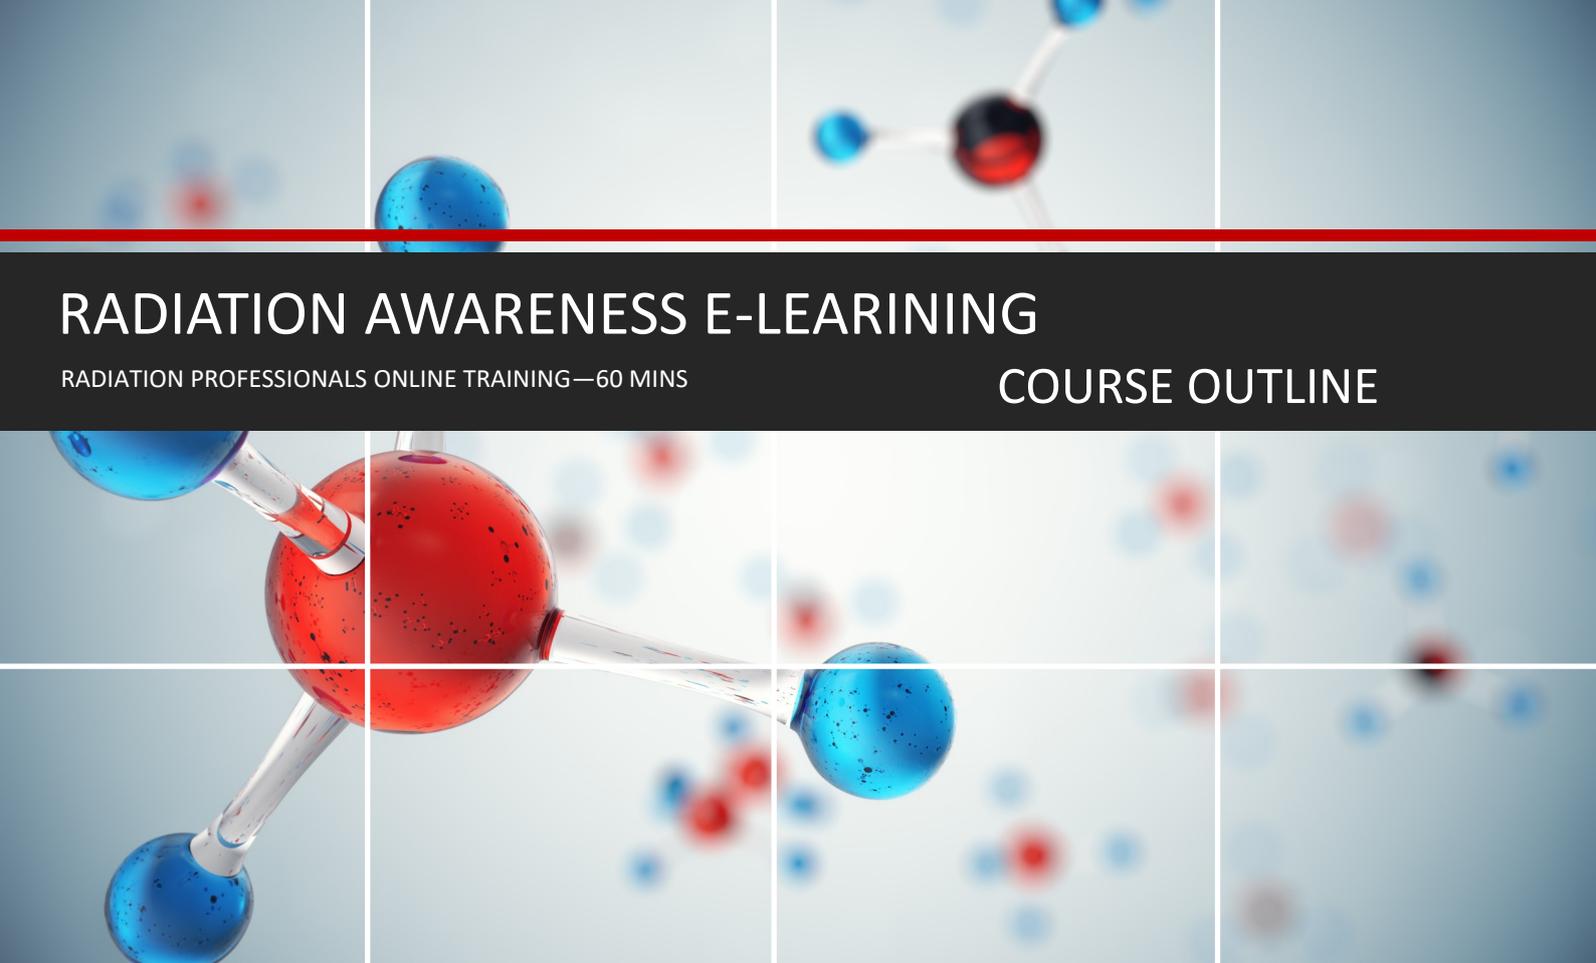

Globe Competency Assurance is in collaboration with Radiation Professionals to deliver e-learning packages to the radiation industry.

CERTIFICATION

There will be a short quiz at the end of this course that will require a pass mark of 100%.

Upon completion of this course trainees will be issued with a Certificate of completion in Radiation Awareness to prove their participation.
